

edarchive-online

The easy and ultra-secure electronic archiving solution for retail business and beyond.

edarchive-online from **Eurodata International** puts you in control. This web-enabled solution makes it easy to transfer data, documents and files into an electronic format, storing them securely in one place. Simply access them whenever needed via your web browser.

edarchive-online saves you time and money. In a world where the average company employee now spends over an hour each day searching for data documents and reports, **edarchive-online** saves this time through efficient archiving, putting you and your employees' time to better use.

With over 40 years of listening to retailer needs, **edarchive-online** is extremely reliable and easy to use. Designed and supported by one of Europe's leading retail software specialists, **edarchive-online** is the easy, cost effective and flexible way to put you in control of your data.

Ultra secure. As a central web-based business solution all your data is stored securely at Eurodata's state-of-the art computer centre giving you complete peace of mind.

Easy to use. **edarchive-online** is as simple to use as surfing the Internet. Just log in with your user name and password and you're ready to go.

Flexible. **edarchive-online** has a sophisticated administration system putting you in complete control. It lets you issue flexible access rights to both internal and external groups of individuals and the system can be easily used by both local users and Eurodata administrators.

edarchive-online

Cost Saving.

edarchive-online is all about cost reduction. With lower process, occupancy, handling and paper archiving costs you make significant cost savings and you fulfil your legal requirements too.

Fully compliant.

edarchive-online meets all basic principles of data access and verifiability of digital documentation so you don't have to worry about the safety of customer data, documentation and receipts for years to come.

Transferring data into

edarchive-online. You can transfer data quickly and easily from different data sources, either automatically or at the touch of a button.

You can also scan paper receipts (via the integrated scan module) and index them automatically or manually, categorising by multiple data options such as format, type, file, name and description for easy recall at a later date.

Searching and retrieving.

Using the full text search function, retrieving your data is simplicity itself. The 'Hit list' feature displays all original files meeting your search criteria as simply as searching for something on the Internet. And with other powerful, intuitive search features there are multiple ways to help you search and retrieve the items you are looking for.

Viewing the document.

edarchive-online lets you view the document the way you want to view it - from contents and properties through to full text. Simply search for a specific word or term used in any document and **edarchive-online** will find it for you.

See edarchive-online in practice.
